Round Wall-Mounted LED Makeup Mirror

Plug-in installation / Three-step installation guide

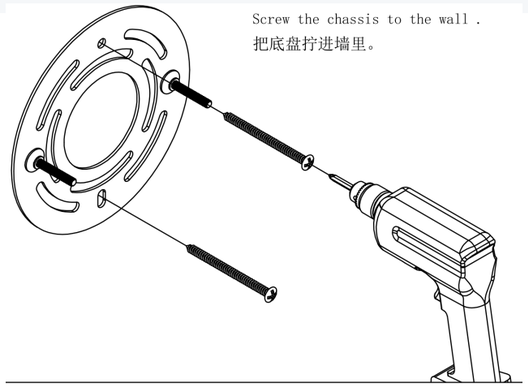

01 Mark and drill the mounting holes

Drill the two marked holes and install suitable wall anchors.

Confirm the drilling dimensions before installation.

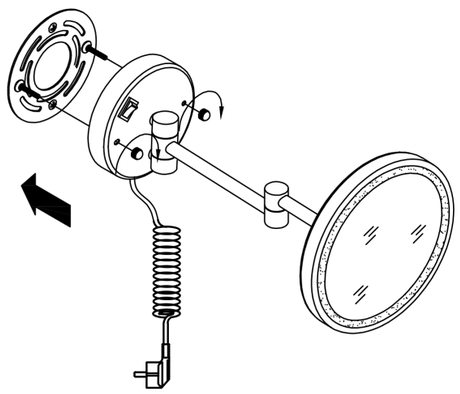

02 Fix the round wall mounting plate

Fasten the original round chassis securely with suitable screws.

Use wall fixings appropriate for the wall material.

03 Attach and secure the mirror assembly

Plug-in version

External cord exits below the wall base.

No hardwiring or wall cable connection is required.

Once mounted, connect the plug to a suitable outlet.

Use the specified retaining nut and mounting hardware.

IMPORTANT - INSTALLATION SAFETY

Use only the approved mounting hole dimensions and fixings. Protect the plug-in cord from pinching and sharp edges.

Verify outlet location, plug rating, and installation requirements before use. Do not modify the wiring.
